

SIKA AT WORK

BILTEMA STORES, SWEDEN

ROOFING WITH Sikaplan® MEMBRANE

BUILDING TRUST

BILTEMA STORES SWEDEN

PROJECT DESCRIPTION

Biltema is a chain of stores that offers a wide range of products for the car, boat, home, leisure time, construction and the office and has over 105 stores in Sweden, Finland, Norway and Denmark. They're in a very expansive phase with 66 new stores, of which 39 in Sweden, planned in the Nordic countries over a period of five years.

In 2013, Sika has supplied the roofing membrane and accessories for five newly opened stores, which together is about 30 000 m² of membrane. The facilities are located in Borås, Vetlanda, Karlskoga, Sweden, Ljungby and Norrtälje.

PROJECT REQUIREMENTS

Buffin Real Estate Ltd is the company that builds and owns Biltema stores in Sweden.

Together with selected contractors, who work with quality products, they are building department stores all over Sweden.

As Biltema advocates products with good and sustainable quality at a great price they want the same to be applied in the construction of their facilities.

The stores are usually several thousand square meters with flat roofs so the material weight of the membrane is an important aspect considering the heavy snow loads that can occur in Sweden during the winter.

The product must also meet all the standard requirements on Water-proofing in Sweden.

SIKA SOLUTIONS

In 2013, Sika Sweden has thru the contractor Techtak in Småland AB delivered over 30 000 m² Sikaplan®-15 VGWT to five Biltema stores in Sweden. Sikaplan®-15 VGWT meets all those requirements Biltema has on a roofing membrane and has the low material weight of only 1.86 kg/m².
