

Sikafloor® Marine-118 FC

FAST CURING SELF-LEVELING COMPOUND

- Fast strength build-up
- Non-combustible
- Great refurbishment solution

PRODUCT DESCRIPTION

Sikafloor® Marine-118 FC is a one component, fast curing self-leveling mortar based on polymer modified cement. The product is applied on interior decks, as constrained layer in the Sikafloor Marine visco-elastic system or as primary deck covering prior to the application of deck finishing materials such as carpets, tiles, parquet, rubber and vinyl.

For specific applications consult the product data sheet or Sika technical service.

PRODUCT BENEFITS

- Fast strength build-up
- High compressive strength
- Excellent leveling properties
- Great pumpability
- Water based 1-component
- Ideal for heavy duty areas
- Ideal for refits

TECHNICAL PROPERTIES

Chemical base	1-component polymer
Density	1.8 kg / m ² / mm
Applied thickness	minimum 3 mm
Ready to walk on	Approx 2 hours
Compressive strength	> 35 MPa
Flexural strength	7.7 MPa
E-Modulus	12.3 GPa
Shelf life	12 months

Our most current General Sales Conditions shall apply.
Please consult the Data Sheet prior to any use and processing.
