

SIKA AT WORK

THE LIGHT, OFFICE BUILDING, BUCHAREST, ROMANIA

BUILDING TRUST

THE LIGHT, OFFICE BUILDING, BUCHAREST, ROMANIA

PROJECT INFORMATION

Project name: The Light Office Building

Location: Bucharest

Glass Facade in m²: 10,500

Year of completion: 2021

PROJECT DESCRIPTION AND REQUIREMENTS

The facade at the ground floor is composed by insulating glass units 6.5 m high bonded to vertical glass fins. Structural sealant joints had to be applied on site for bonding the elements.

SIKA SOLUTIONS

Dedicated support was provided by Sika Romania as well as the Technical Department of Sika Services at Corporate to engineer and finalize an optimum bonding solution. Preliminary trial tests with Sikasil® SG-500 adhesive ensured the successful bonding on site by cartridge application.

PRODUCTS USED

- Sikasil® SG-500
- SikaTack® Panel-50
- Sikasil® WS-605 S
- SikaMembran® Universal
- SikaBond® TF plus N
- Sikasil®-670 Fire
